17. Please identify each instance in which you have testified orally or in writing before Congress in a governmental or non-governmental capacity and specify the date and subject matter of each testimony.

None.

18. Given the current mission, major programs, and major operational objectives of the department/agency to which you have been nominated, what in your background or employment experience do you believe affirmatively qualifies you for appointment to the position for which you have been nominated, and why do you wish to serve in that position?

I have been a Coast Guard officer for 33+ years and have served in a diverse set of field and staff assignments. I have commanded four Coast Guard units (at the cutter, Sector and District levels) and been second in command of several others. I have been exposed to most Coast Guard missions. My staff assignments have provided a broad experience base in program management, budget formulation and execution, personnel management, requirements development and training. I have experience working with Interagency partners as well as State and local officials; more importantly, I have learned from all of them.

It has been an honor to serve in the United States Coast Guard. I am committed to the Coast Guard's missions and serving the taxpayers. It would be an honor to continue to serve.

19. What do you believe are your responsibilities, if confirmed, to ensure that the department/agency has proper management and accounting controls, and what experience do you have in managing a large organization?

The Coast Guard has worked very hard to meet the Chief Financial Act requirements and we are proud to have achieved a clean financial audit for five straight years. Every employee has a role in ensuring the U.S. Coast Guard has the proper management and accounting controls. As public servants, we must be responsible stewards of taxpayer resources. As a senior leader in the U.S. Coast Guard, my role is to stress the importance of management and accounting controls and ensure we have the proper policies and resources to meet our requirements. I must also ensure that resources under my control are properly used and accounted for in accordance with all

laws and regulations and that we are good stewards of these resources our taxpayers entrust us with.

Throughout my career, I have been honored to serve in increasing positions of responsibility and have commanded a Coast Guard Cutter, Sector, District as well as our Force Readiness Command. From 2006-2009, I served as the Commander of Coast Guard Sector Key West. In this capacity, I was responsible for leading all Coast Guard operations in a large and complex 55,000 square mile operating area that bordered two foreign countries.

From 2009 to 2011, I served as the Chief of Staff of the Coast Guard's Seventh District. The Seventh District, headquartered in Miami, FL is responsible for Coast Guard operations in a large area including South Carolina, Georgia, Florida and the Caribbean. In this position I oversaw thousands of personnel and tens of millions of dollars. I also served as the acting District Commander during the response to the 2010 Haiti Earthquake.

From 2011-2013 I was assigned to Coast Guard Headquarters first as the Deputy Assistant Commandant for Capability and then as the Executive Assistant to the Deputy Commandant for Operations, a Vice Admiral. In these capacities, I helped lead Headquarters level Directorates with hundreds of personnel assigned and was responsible for tens of millions of dollars. During this time, I helped set policies and define requirements for the Coast Guard.

From 2013 to 2015, I served as the Commander of Force Readiness Command, responsible for training Coast Guard personnel, providing them Tactics, Techniques and Procedures, assessing their individual and unit level readiness and exercising their ability to meet contingency plan requirements. In this assignment I was responsible for nearly 3,000 personnel and 200+ million in operating funds.

From 2015-2017, I served as the Commander of the Coast Guard's Seventh District (D7) and the Director of the Homeland Security Task Force Southeast (HSTF-SE). As the D7 Commander, I was responsible for Coast Guard operations in South Carolina, Georgia, Florida, Puerto Rico and the Virgin Islands and the Caribbean Region. As the Director of HSTF-SE, I was responsible for planning and preparing for, preventing and responding to a maritime migration in the Caribbean. HSTF-SE is a unified command

that not includes DHS components and state and local officials, supported by the Department of Defense.

From 2017 to the present, I have served as the Deputy Commander of Coast Guard Atlantic Area with responsibility for overseeing Coast Guard operations from the Rocky Mountains to the Arabian Gulf. During this time, we responded to the historic 2017 hurricane season, which provided me with additional experience responding to large scale contingencies.

Each of these positions has afforded me the opportunity to manage larger portfolios with greater breadths of issues and responsibilities. I have learned a lot in each assignment, have grown, and look forward to applying lessons learned to meet greater challenges and responsibilities

20. What do you believe to be the top three challenges facing the department/agency, and why?

The top three challenges facing the U.S. Coast Guard include:

- Protecting the homeland and targeting transnational criminal organizations.
- Continuing progress on recapitalizing our major operational assets.
- Recruiting and retaining a high performing and diverse workforce, providing them the tools they need to safely and proficiently perform Coast Guard missions, and an environment in which they succeed.

As the lead Federal agency for maritime safety and security, the U.S. Coast Guard is a key component of DHS's efforts to secure our homeland, including targeting transnational criminal organizations that threaten the stability of Nations in the Western Hemisphere and whose activities manifest either at our borders or in our homeland. This includes the harmful impacts of illegal drugs and people leaving their countries and attempting to enter the United States. The Coast Guard's unique authorities and capabilities position us well to support DHS to address these threats far from our shores and to continue to enhance unity of effort within DHS. We must also execute our strategies to meet emerging threats, including in the Cyber domain. At the same time we secure our maritime borders, the Coast Guard must continue to safeguard and facilitate the movement of commerce on America's waterways, where more than \$4 trillion of annual economic activity move.

Due to the strong support of the Administration and Congress, the Coast Guard is making significant progress on recapitalizing our offshore assets. This will continue to be important as our major cutters average approximately 40 years of age and have been operating in extreme environments. Our professional acquisition workforce is well positioned to help us manage large and complex acquisitions efficiently and effectively and that must continue to be an area of focus for us. While we do this, we must look for ways to preserve and restore our readiness that has been eroded due to lost buying power.

Finally, the Coast Guard has a dedicated workforce that performs challenging missions, frequently in harsh and unforgiving environments. We must ensure we provide this workforce the right doctrine, policies, training, support systems, and skills needed for future challenges. There are many opportunities outside Federal Service and we are implementing the Blended Retirement System which provides additional portability options, we must continue to recruit and retain a talented, diverse and dedicated workforce. We must also provide this workforce an environment in which they can succeed, one free of sexual assault, discrimination, harassment, bullying and other forms of intimidation.

B. POTENTIAL CONFLICTS OF INTEREST

1. Describe all financial arrangements, deferred compensation agreements, and other continuing dealings with business associates, clients, or customers. Please include information related to retirement accounts.

Please see my nominee PFDR.

2. Do you have any commitments or agreements, formal or informal, to maintain employment, affiliation, or practice with any business, association or other organization during your appointment? If so, please explain.

No.

3. Indicate any investments, obligations, liabilities, or other relationships which could involve potential conflicts of interest in the position to which you have been nominated.

None.

4. Describe any business relationship, dealing, or financial transaction which you have had during the last ten years, whether for yourself, on behalf of a client, or acting as an agent, that could in any way constitute or result in a possible conflict of interest in the position to which you have been nominated.

None.

5. Describe any activity during the past ten years in which you have been engaged for the purpose of directly or indirectly influencing the passage, defeat, or modification of any legislation or affecting the administration and execution of law or public policy.

As a Sector Commander (2006-2009), District Chief of Staff (2009-2011), District Commander (2015-2017), and Deputy Area Commander (2017-present), I frequently hosted members of the Administration and Congress and congressional staff members conducting field visits to learn about Coast Guard operations.

Outside official Coast Guard duties, I have not participated in any activities to influence legislation.

6. Explain how you will resolve any potential conflict of interest, including any that may be disclosed by your responses to the above items.

I will obtain advice from a Coast Guard ethics official and follow that advice.

C. LEGAL MATTERS

1. Have you ever been disciplined or cited for a breach of ethics by, or been the subject of a complaint to any court, administrative agency, professional association, disciplinary committee, or other professional group? If so, please explain.

No.

2. Have you ever been investigated, arrested, charged, or held by any Federal, State, or other law enforcement authority of any Federal, State, county, or municipal entity, other than for a minor traffic offense? If so, please explain.

No, but in the 2009-2010 academic school year, our 7th grade son missed approximately 50 days of school. This information was reported to the Florida Department of Children and Families (DCF). DCF investigated the matter, determined the absences were due to medical conditions and appropriate medical care was being provided and there were no areas of concern and closed the matter without further action.

3. Have you or any business of which you are or were an officer ever been involved as a party in an administrative agency proceeding or civil litigation? If so, please explain.

No.

4. Have you ever been convicted (including pleas of guilty or *nolo contendere*) of any criminal violation other than a minor traffic offense? If so, please explain.

No.

5. Have you ever been accused, formally or informally, of sexual harassment or discrimination on the basis of sex, race, religion, or any other basis? If so, please explain.

No.

6. If you ever served as a general court-martial convening authority involving an offense involving sexual misconduct or assault, have you ever disapproved the findings of a court-martial related to the offense(s) or reduced the sentence adjudged by a court-martial, other than in connection with a pre-trial agreement?

I have not disapproved the findings in any sexual assault court-martial for which I was the general court-martial convening authority. I did reduce the sentence in one general court-martial, unrelated to any pretrial agreement. The accused was charged with sexual assault against three victims. After a week-long contested trial, the members (jury) acquitted the accused of some charges, and found him guilty of others. The sentence imposed by the members was a Bad Conduct Discharge, reduction in grade to E-1, 60 days restriction, and 90 days of hard labor without confinement. The reduction to E-1 was executed automatically after the trial. Under the Uniform Code of Military Justice, the other punishments could not be approved or executed until I, as convening authority, took final action on the case. I approved the Bad Conduct Discharge and disapproved the sentence of restriction and hard labor without confinement. The result was that the accused was placed immediately on appellate leave status pending execution of his Bad Conduct Discharge (which occurs after appellate review). I disapproved the restriction and the hard labor without confinement to avoid the risk to Coast Guard members that would have been occasioned by the accused's enforced residence in Coast Guard barracks as a result of the restriction and his presence in the workplace to perform hard labor. This also avoided his receiving pay for the additional time. I followed the recommendation of my Staff Judge Advocate (a senior captain) and after consulting with the victims who did not object.

7. Please advise the Committee of any additional information, favorable or unfavorable, which you feel should be disclosed in connection with your nomination.

None.

D. RELATIONSHIP WITH COMMITTEE

1. Will you ensure that your department/agency complies with deadlines for information set by congressional committees?

Yes.

2. Will you ensure that your department/agency does whatever it can to protect congressional witnesses and whistle blowers from reprisal for their testimony and disclosures?

Yes.

3. Will you cooperate in providing the Committee with requested witnesses, including technical experts and career employees, with firsthand knowledge of matters of interest to the Committee?

Yes.

4. Are you willing to appear and testify before any duly constituted committee of the Congress on such occasions as you may be reasonably requested to do so?

Yes.

(Nominee is to include this signed affidavit along with answers to the above questions.)
